

HERKULES

The companies in the HerkulesGroup are global suppliers of high quality heavy-duty machine tools. Maschinenfabrik Herkules, as part of the HerkulesGroup, concentrates its competences on anything related to roll machining. Herkules' top quality and outstanding technology stand for our customers' success.

Key figures:

150 million Euros in revenue in 2018
1,500 employees worldwide

Your benefits:

- Better strip flow with higher output rates
- Better quality of your end product
- Reduced stock loss for each grinding campaign
- Longer roll life
- Reduced overall costs

We offer:

- More than 2500 Herkules roll grinders have already been supplied to cold and hot rolling mills all around the world
- Herkules control technology including fastest feedback rates and Herkules measuring technology enable a grinding process leading to a highly homogeneous roll barrel surface at minimum stock loss

Topics of the speeches:

- Introduction to the Cold Rolling and Hot Rolling Day 2019 in Memphis
- Latest Developments in State-of-the-Art Herkules Roll Grinding Machines
